

GET HELP ★

There are several ways for combat Veterans to get help with PTSD:

- ★ Take the self-assessment test on our website
- ★ Attend a Warrior Group in your area or connect in a Warrior Group online
- ★ Call our Combat Trauma Support Line.
A Veteran will answer your call:
1-877-717-PTSD (7873)

CAMP HOPE ★

Camp Hope is a six- to nine-month interim housing program designed to relieve the effects of combat trauma. Based in Houston, Texas, Camp Hope's holistic approach involves providing temporary housing, peer support and professional counseling for America's warriors and their families. Our program emphasizes a curriculum rooted in Christian principles, welcoming individuals from all faith backgrounds.

#SAVE44 ★

For over 20 years since 9/11, military suicides are four times higher than service members' deaths while deployed. America's Warrior Partnership released an interim report in 2022 with the findings from their Operation Deep Dive (OpDD) study conducted in association with the University of Alabama, Duke University, and the Bristol-Meyers Squibb Foundation indicating the number of Veterans are lost to their own hands. The data analysis indicated an error rate of 25% in miscategorized deaths, increasing the actual suicide rate by 37%, denoting the number of Veterans dying by self-inflicted means is closer to 44 a day! Many misclassifications were found in the overdose and alcohol-related deaths, followed by the individual not being identified as a former service member on the death certificate.

GIVE HELP ★

Join us in our mission to help our Veterans and their families get the help and healing they need.

- ★ Share our story with others on social media
- ★ Subscribe to our monthly newsletter
- ★ Sponsor a Veteran by giving a monthly donation
- ★ Donate or help with our urgent needs list

GET INVOLVED ★

- ★ Hold a fundraising event in your area
- ★ Volunteer at a location near you
- ★ Donate food, clothing, and household items to help with the daily operation of Camp Hope
